**SHOW &
SALE**

APRIL 11
1964

OSKALOOSA, IOWA

(SOUTHERN IOWA FAIRGROUNDS)

Polled Shorthorn bulls like these have much to offer the commercial and purebred cattlemen. Wouldn't a load of calves of this conformation and thickness be popular with feeders?

THE CENTRAL STATES SALE

"Sale of the Money Makers"

OSKALOOSA, IOWA

SATURDAY, APRIL 11, 1964

27 BULLS

17 FEMALES

There is a reason why this sale has become known as "The Sale of the Money Makers". It is because the Central States Shorthorns and Polled Shorthorns are offered in "working" condition . . . ready to go into your herd and make money. You are not paying for fancy dress but for bulls and females in strong breeding condition and of dependable bloodlines. Be sure to attend this sale.

At left, Mrs. Bette Schon, granddaughter of Thomas Bray, poses with ROYAL TALISMAN 8th, herd sire at Braywood Farms. This bull has sired numerous champions and top sellers at Central States sales.

GENERAL INFORMATION

TIME — The sale will be held Saturday, April 11. The show will begin at 9 a.m. Sale will start at 12:30 p.m.

LOCATION — Southern Iowa Fairgrounds, northwest section of Oskaloosa, close to primary road 92 and 163.

TERMS — Terms of this sale are cash unless other arrangements have been made with consignor from which you purchase and the sale manager is notified.

GUARANTEE — All cattle are sold subject to a 60-day re-test for tuberculosis if kept isolated, unless going into a Federal Accredited herd. Health certificates will be furnished to enable them to be shipped into other states. All cattle have been tested for tuberculosis unless they come from an accredited herd. The cattle have been tested for Bangs within 30 days or have been calfhood vaccinated unless otherwise stated.

Bulls are guaranteed breeders if properly cared for, not allowed to run with the herd, and not used before 14 months of age. If a bull fails to breed, he may be returned to the seller, and, if after a test in the seller's herd he still fails to breed, he will be replaced or the purchase money will be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other cows and all heifers over 14 months old at the time of the sale are guaranteed to be breeders. Heifers should not be served by old or heavy bulls. The buyer must give the seller notice within 90 days in case of a non-breeder. In the case of young bulls this means within 90 days after they become 14 months of age. All animals must be in as good condition as when purchased to be eligible for adjustment. Animals returned to sellers because they do not comply with guarantee will be at buyer's cost of transportation.

LIABILITY — Each transaction in this sale will constitute a contract between the buyer and seller of each lot. The auctioneers, ringmen, or sale manager have been employed by the consignors for specific tasks not connected with the handling of the cattle or the condition of the premises and they will accept no liability, legal or otherwise, for the buying contract or for any accident. Neither can the seller accept any liability for injuries that may occur. All persons attend this sale at their own risk.

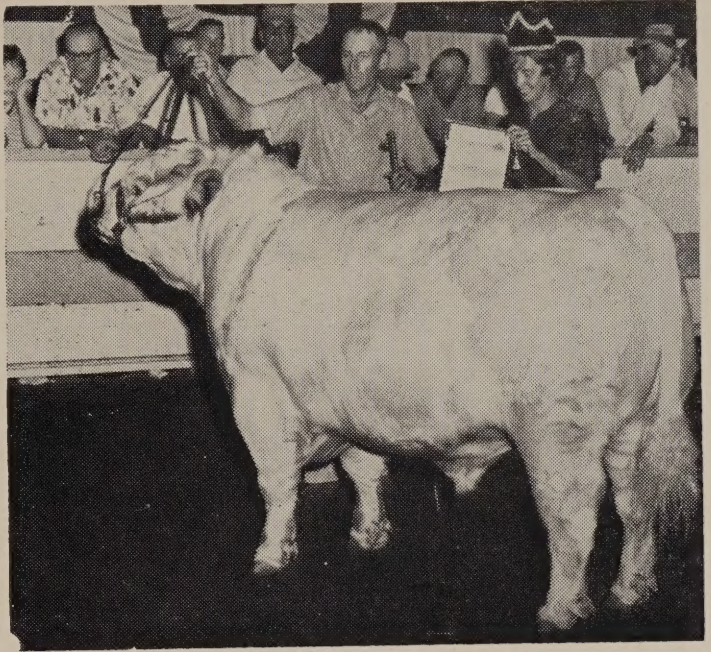

LUNCH — Lunch will be served on the grounds by the ladies of the Central Reform Church.

AUCTIONEERS — Tom Sherlock, Harvey Neiderhisar, and Adrian Meierotto.

SALE MANAGER — Bill Stunkel, 1228 N. Nye Ave., Fremont, Neb.

REGISTRATION CERTIFICATE — A certificate of registry will be furnished with each registered lot and will be transferred to the buyer without cost to him. Application for registry, properly signed, will be furnished with each unborn calf sold in dam.

Consignors to the annual Central States sale produced some of the best cattle in the nation. This bull, PF DIVIDEND, was the grand champion at the 1963 Iowa State Fair for Penningroth Bros., Wellman, Ia., who are consignors of three head to this event. This bull later was reserve champion at the International Congress sale, where he sold for \$2,500. A maternal brother sells in this sale.

BRAYWOOD RAMROD R — He's the first calf out of Goldie's Belle 9th that we bought in the George Gruss dispersion. A combination of Cruggleton Leishman and Aberfeldy Nominee blood — so he had to be good.

WHY USE SHORTHORN BULLS ?

John Catron, Camp Crook, South Dakota, turned a Shorthorn, a Polled Hereford, and an Angus bull with 120 cows. One hundred calves resulted. Catron did not guess — he weighed the calves.

THE BOX SCORE

Sire	No. Calves	Av. Weaning Weight	Total Pounds
Shorthorn	47	330 lbs.	15,510
Hereford	34	306 lbs.	10,404
Angus	24	313 lbs.	7,512

John Catron, just like you, Mr. Cattleman, was interested in production of total pounds of quality meat. That's why he now is convinced of the advantages and reliability of Shorthorns. You, too, can harvest this kind of a crop by using Shorthorns.

The trademark of a good Shorthorn and Polled Shorthorn cow is that husky calf at her side. Shorthorn cows give more milk, consequently their calves always weigh more at weaning time . . . an important consideration for those of you selling feeder calves.
